DETAILED ACTION

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because it exceeds 150 words.

Correction is required. See MPEP § 608.01(b).

Claim Objections

3. Claim 29 is objected to because of the following informalities: It is a duplicate of claim 23. Appropriate correction is required.

Allowable Subject Matter

4. Claims 1-52 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to anticipate or make obvious the particular method, device and computer program.

Conclusion

6. This application is in condition for allowance except for the following formal matters:

Art Unit: 2662

(1) The abstract is too long.

(2) Claim 29 (while allowable) is a duplicate of claim 23.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
